

Get an overview of your pension

You will find your Nordea Liv insurance certificate (forsikringsbevis) and the terms of your pension agreement in your mailbox in Persondialogen

You can influence the size of your future pension

Your pension is invested in funds consisting of different equities and fixed income instruments. Your employer chooses a fund with a set percentage of equities. This investment profile is the same for all employees and not necessarily adapted to your needs.

You can change your investment profile for your pension savings. Some prefer a high degree of security, while others are more willing to take risks in the hope of higher returns. You should also think about the number of years until you would like to start drawing your pension. We encourage you to consider these factors and adapt your pension saving plan to your wishes

A complete overview in Persondialogen

In Persondialogen you get a complete overview of your pension agreement and access to various features:

- Calculate your expected pension.
- Get an overview of available funds and change your investment profile.
- Get an overview of your pension capital, how the money is invested and the current return.

We must be able to reach you

We are here to help you and your pension is important for us. After all, it's your income in retirement that we're talking about.

For us to be able to assist you we need your contact details. Log in to Persondialogen on nordealiv.no and update "My profile". Nordea Liv will send your post digitally to your mailbox in Persondialogen. If you prefer to receive the documents via regular post, please specify this in Persondialogen or get in touch with

Data privacy at Nordea Liv
